

VALUE-BASED PURCHASING: FINAL RULE

- Individual hospital performance on each measure will be publicly reported.
- Excludes measures with fewer than 10 cases and excludes hospitals with fewer than 4 of the 12 clinical processes or fewer than 100 HCAHPS surveys.
- CMS will measure “achievement” and “improvement” for each measure.
- Must meet minimum achievement threshold to receive any points.
- Hospitals that exceed the “benchmark” score will earn maximum points.
- Improvement scores are measured against the baseline period and the benchmark score – point scale is 0 – 10.
